Council Ambition

We will strive to be:

An enterprising and value for money council, enabling people and communities to thrive

Council Outcomes

We want Derbyshire to have:

- **Resilient and thriving communities** which take responsibility for improving their areas and supporting each other
- **Happy, safe and healthy people** with solid networks of support, who feel in control of their personal circumstances and aspirations
- **A strong, diverse and adaptable economy** which makes the most of Derbyshire's rich assets and provides meaningful employment opportunities for local people
- **Great places to live, work and visit**, with outstanding schools, diverse cultural opportunities, transport connections that keep things moving and a healthy environment for all
- **High quality public services** that work together and alongside communities to deliver services that meet people's needs.

Council Priorities for 2019-20

Our Council priorities are:

- Value for money
- A prosperous Derbyshire
- Empowered and self-sufficient communities
- A focus on prevention and early intervention
- High performing council services

Departmental Overview

Employing over 730 staff and with an annual revenue budget exceeding £76 million, the Department provides a wide range of services within the community which have a direct impact on the lives of Derbyshire people, as well as on those people who visit or work within the County.

The Department's focus is to build a strong local economy that creates jobs, provides a skilled and confident workforce and promotes an environment where businesses can grow, whilst ensuring that the public are kept safe and the environment is protected for future generations.

The Department will be instrumental in taking forward the economic development and regeneration agenda and will play a vital role in developing services and infrastructure that encourages and delivers against the Council Plan priority of **a prosperous Derbyshire**. The Department will ensure its resources are focussed on those areas that support and help sustain growth and create jobs.

The Council has been working with local authorities across Derbyshire and Nottinghamshire to develop stronger regional arrangements through joint working with the Derby, Derbyshire, Nottingham, Nottinghamshire (D2N2) Local Enterprise Partnership (LEP); it will continue to work with partners to agree the creation of a Strategic Alliance for the region to drive sustainable growth.

Growing the local economy of Derbyshire is an important consideration in all aspects of the Department's work, whether through providing a well maintained highway network and efficient transport system, supporting sustainable mineral extraction through planning decisions or promoting the countryside that is rich and diverse in its landscape and cultural heritage.

A well maintained highway network, that provides excellent transport and communication links to key business hubs, is vital if Derbyshire's local economy is to grow key infrastructure projects through the LEP, maximising the availability of all funding sources.

The Department will look to facilitate further positive economic growth by supporting and promoting strong business sectors such as the minerals extraction industry and also by addressing the County's competitiveness in relation to other areas, such as private sector waste infrastructure. The Department will also look to balance economic growth whilst protecting what makes Derbyshire special, such as its heritage and landscape, which themselves are major economic assets.

Strategic Leadership and Management

As the Department meets the challenges of reducing resources, changing national policies and new systems and technologies, effective workforce planning is essential to ensure that there are the right number of employees, with the right knowledge and skills, in the right place, at the right time. The Department will, therefore, need to ensure that its resources, whether financial, staffing or physical, are properly aligned to meet service priorities in the short and long term.

Leadership and direction will be provided to ensure effective management of staff and provision of support to the Departmental Management Team in order to assist in the Council's wider drive for effectiveness and efficiency and contribute to required savings targets, as necessary.

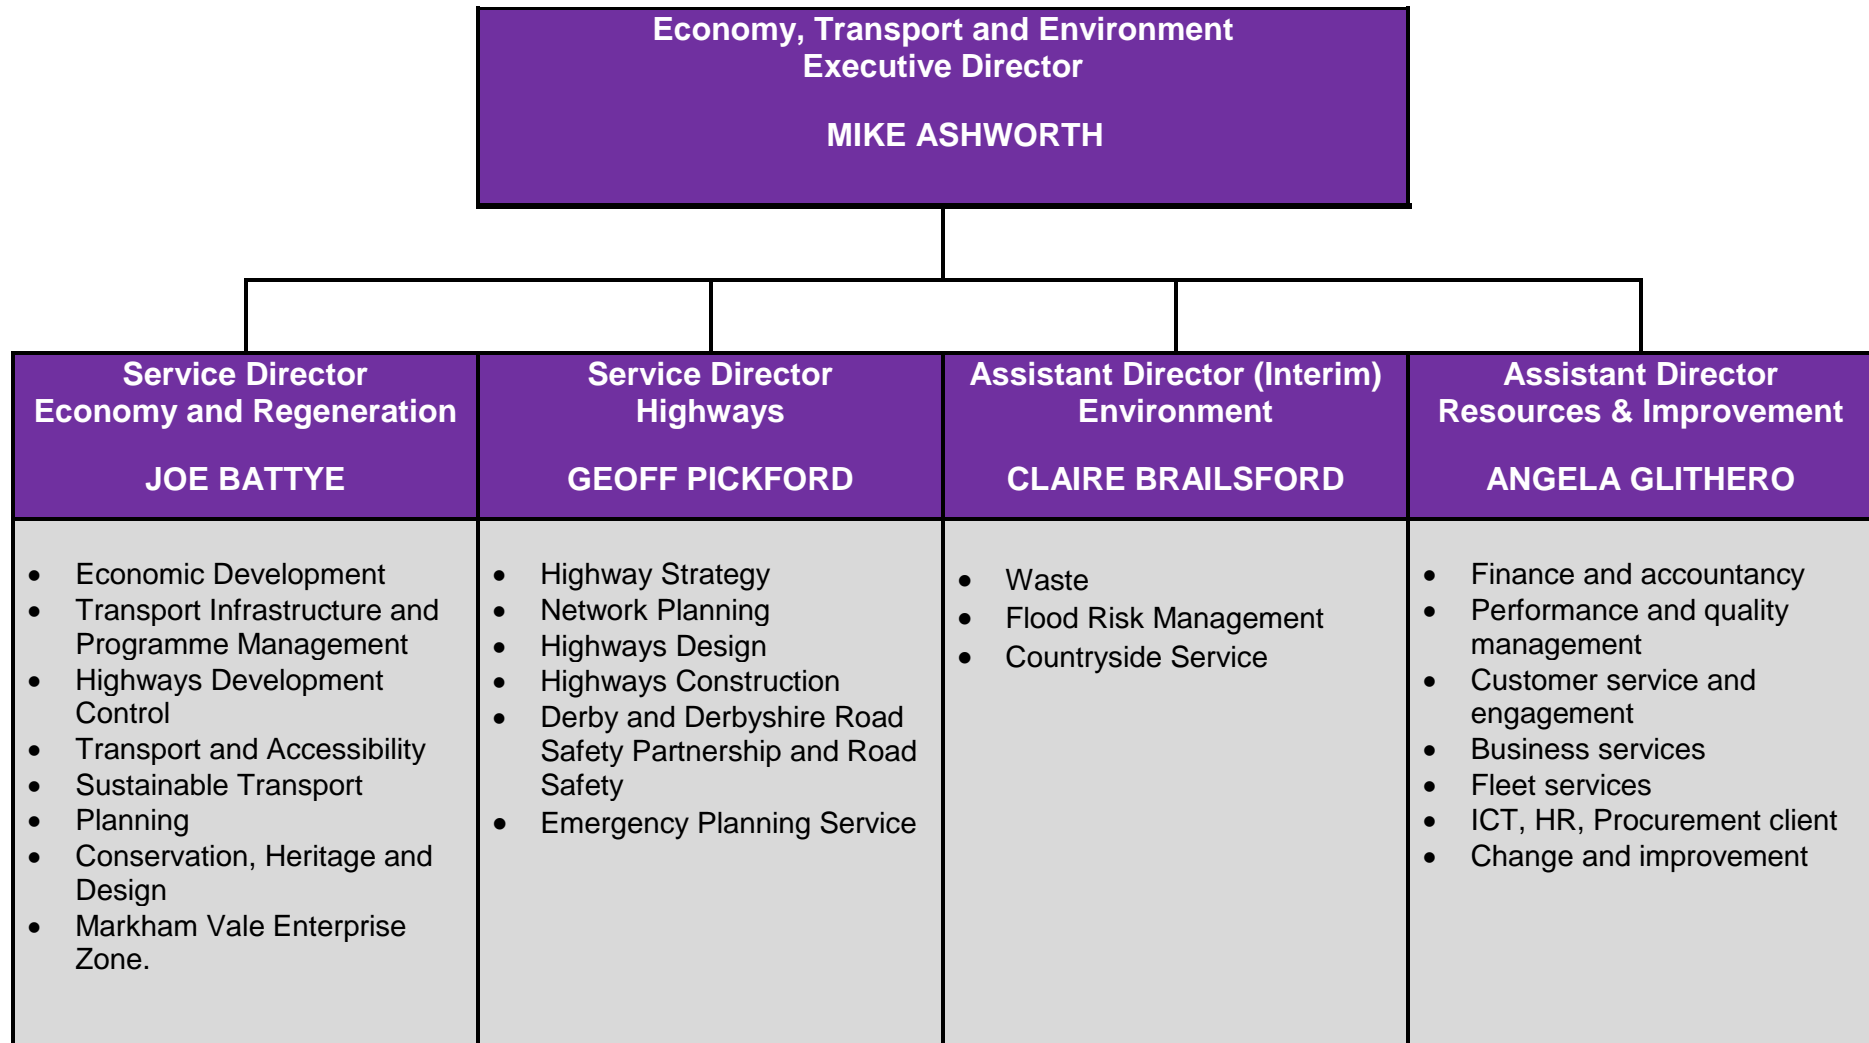

Workforce planning will ensure the Department is able to identify and effectively plan for issues and challenges, including any reducing areas of work, any new or growth areas, changes in Government and Council policies and the impact of other internal and external drivers. The workforce planning process will also enable the Department to address any skills and competency needs, for example, where there may be changes to jobs or services, skills shortages or new requirements/working practices and processes to meet our business needs, ensuring relevant and appropriate training and development is provided.

Details of the Department's approved controllable budget, forward plan of procurement and Vehicle Replacement Programme and Waste Management Capital Programme and Derelict Land Reclamation and Regeneration Capital Programme are contained in the Appendices to the Service Plan.

Delivery of the Department's services and operations will be guided by the principles of sustainability embedded in the revised Corporate Environment Policy, Strategy and Action Plan, in order to promote a better quality of life for our communities, encourage economic regeneration and protect and enhance the environment.

The Department will provide the leadership and framework to achieve its performance targets through its Quality Management Systems (QMS) and Environmental Management System (EMS), in accordance with the requirements of the International Standards Organisation ISO9001 and ISO1400 respectively.

Departmental Services

Budget savings and risk

The Department will contribute to the Council's priority of providing **Value for Money** during 2019-20 and will deliver savings of **£737,000** as follows:

Gold Card concessionary fares	The cost of providing subsidized fares for older people and people with disabilities has reduced due to demand being lower than in previous years, achieving this saving.	£250,000
Safe and Active Travel	The School Crossing Patrol service will be funded and managed as part of Public Health's safe and active travel programme, enabling this money to be saved from the Council's revenue budget.	£240,000
Countryside	The Council is looking for alternative sources of funding and generating income through commercial activity to help it continue running this service.	£100,000
Civil Parking	The Council will save money by managing its Civil Parking Enforcement service differently.	£90,000
Emergency Planning	The Council will look at ways of providing this service at less cost.	£57,000

There a number of risks associated with the delivery of the Economy, Transport and Environment Service Plan over the next 12 months, which could have an impact on the ability to deliver against the Council and departmental priorities. These risks include the ability to recruit and retain appropriately qualified staff, the availability of funding and resources and the impact of any potential no deal European Union Exit on Council services.

Achievements during 2018-19

A summary of the key achievements for the Department during **2018-19** are detailed below:

- **Digital Derbyshire** - by the end of 2018-19, the Digital Derbyshire Superfast Broadband programme had delivered faster broadband to over 106,000 premises with over 97,000 with access superfast (in excess of 24Mbps). Take up of services for those premises reached during phase 1 now exceeds 55%, generating a return for the Council to be re-invested into further provision
- **The D2N2 Digital Growth programme**, funded by ERDF and delivered by the council's Digital Derbyshire team, has supported 62 businesses in the county to improve their digital capital and processes making Derbyshire small and medium sized enterprises more competitive and boosting productivity.
- **D2 Business Starter Programme** – Aimed at promoting enterprise and entrepreneurship, the programme has provided a range of support from workshops through to 1-2-1 advice to 334 people in Derbyshire looking to start up their own business. By the end of 2018/19, this had led to the creation of 104 new businesses created.
- **D2EE** – Over the last 12 months, 80 businesses have benefited from energy efficiency advice and grant support from the award winning D2EE programme. The programme provides technical support and funding to help Small and Medium Enterprises (SME's) save money, reduce energy costs and carbon emissions and demonstrate green business is good business. As a result of the innovative project, the County Council (in partnership with Derby City) has won the coveted East Midlands Energy Efficiency "Best Local Authority" award two years in row.
- **Elvaston Castle and Country Park** – a revised master plan for Elvaston Castle and Country Park has been approved following a public consultation in 2018. The master plan sets out to ensure the long term future of the estate, ensuring its financial sustainability with the balance of conservation, heritage and access at its core. People, community involvement and partnership working are at the heart of all activities with the long-term ambition being to hand the day-to-day running of the estate to the Elvaston Castle and Gardens Trust as a single management body.
- **School Crossing Patrol Services Saved** – the future of the schools crossing patrol service secured, with the service being incorporated into the safe and active travel programme led by Public Health.
- **Future Highways Model** – as part of the Enterprising Council approach, reviewed the delivery mechanism for Highway Services resulting in the development and formal approval of the Future Highways Model

- Maintain **Band 3 Status for the Department of Transport's Highways Maintenance Block incentive element** ensuring the Council is 100% funded and retains **£3.206m**
- Successfully utilised the **additional £8.4 million** funding made available by Department for Transport to improve Derbyshire's roads by fixing over 70,000 potholes, resurfacing, rebuilding retaining walls and undertaking work to fix drains resulting in a record low number of defects.
- **APSE Innovation Awards 2018 Winner in the Highways Maintenance Category** - in recognition of the changes that have been made in the way we work, resulting in a greater proportion of highways defects being repaired within target and the number of potholes being dramatically reduced
- **Institute of Civil Engineers (ICE) East Midlands Merit Award for Small Projects** received for soil nailing on the A610
- Top of all **County Councils for Road Safety Education and Road Safety Locally for 2018**
- Implemented the **New Code of Practice for Well Managed Highway Infrastructure Code of Practice**
- **Planning Service has been successful in:**
 - Achieving an overall 95% performance for determining planning applications and managing the Ineos Exploratory Core Well application through the Public Inquiry, along with other significant minerals and waste applications
 - Securing over £16m through s106 development contributions
 - Securing £200,000 Planning Delivery Grant Funding
 - Developing the Derbyshire Infrastructure Investment Plan and making significant contributions to all the proposed Derbyshire growth zones and other strategic consultations
 - Steering ETE Environmental Management System to accreditation for 2018.
- **Sustainable Travel:**
 - The Low Emission Vehicle Infrastructure (LEVI) Open Day was held on 9th October 2018 to help inform the development of our LEVI Strategy and, with presentations from The Energy Savings Trust, Toyota, Go Ultra Low, Western Power and Magtec Solutions.
 - As part of the LEVI development we have installed five Dual Electric Vehicles Charge Points at County Hall, for use by staff and visitors.

- **Waste Watchers Programme** – delivered the waste education theatre project ‘Waste watchers’ during the spring term 2019 including 31 performance days to secondary schools which incorporated 97 workshops with approximately 5,766 year 7 or 8 students participated in the programme

Section One: Council Priorities
