A wide range of indicators will be available through the dashboard, and a number of key indicators that we will track are presented below.

**Source:** Indicators sourced from Office of Health Improvement & Disparities Fingertips (OHID) Public Health Profiles. Please note that for some indicators on OHID Fingertips, the denominator source has been updated from the 2011 census population estimates to the 2021 census population estimates. Therefore, some indicators will not be directly comparable to previous versions.
