

# Equality Impact Analysis Record Form 2020 – Derbyshire County Council

<b>Part 1: Introduction and Context</b>		
Policy/ Service under development/ review	Household Waste Recycling Centres – Restriction of Access	
Department/ Enterprising Council Workstream	Place	
Lead officer/ Workstream Lead	Daniel Ayrton	
EIA Team:		
Date analysis commenced: October 2023	Date completed: February 2024	Date approved: 13/02/2024
<p>Aims/ objectives of the policy/ service?</p> <p>Derbyshire County Council is a Waste Disposal Authority (“WDA”) with statutory duties to arrange for the disposal of Local Authority Collected Municipal Waste (“LACMW”). Under Section.51 of the Environmental Protection Act 1990, it is the duty of all WDAs to provide places for residents in its area to deposit household waste and to arrange for its disposal.</p> <p>These Household Waste Recycling Centres (“HWRC”) must operate free of charge, be situated in a reasonably accessible location and be open at all reasonable times. The Council provides nine HWRCs across its administrative area, eight operated under contract by the waste management company HW Martin, and one operated under contract by Suez Recycling and Recovery UK Ltd.</p> <p>As part of the 2021-22 budget setting process, £230,000 recurring revenue saving was identified by introducing a set of measures to ensure only residents of Derbyshire were able to access the County’s network of HWRCs.</p> <p>The budget saving relies on the Council implementing a robust system to identify users of HWRCs who are not domicile within the County boundary or who are operating commercially in order that they be refused entry to use the HWRCs. A separate EIA has been undertaken in relation to the implementation of a vehicle registration process.</p>		

Additional savings are required in order to delivery the service within the available resources. The following measures are being recommended to Cabinet for implementation:

- Introducing a small charge for residents to disposal of asbestos and tyres at HWRCs
- Reducing the opening hours of HWRCs by two hours per day (9.30am – 5.00pm)

What outcomes will be achieved with the new or changing policy/ service?

The primary impact of the proposal will be a reduction in the cost of processing and disposing of waste.

Are there any associated/ linked policies, services or procedures?

**Derby Joint Municipal Waste Management Strategy (JMWMS)**

The JMWMS strategic goals are:

- To reduce the amount of waste produced,
- To reuse, recycle and compost as much material as possible, and
- To find the most sustainable solutions to deal with any waste produced.

Please list the main people or groups that this policy/ service is designed to benefit and any other stakeholder involvement?

HWRCs are a universal service available without charge to any resident of Derbyshire. The service is paid for out of the general revenue account and as such any benefit from a reduction in costs cannot be traced to any one group. However, the Council has a best value duty to its residents and delivering statutory services at lower cost is in the broader public interest.

Will the policy/ service and any changes impact on any other organisations such as community and voluntary sector groups?

No such impacts have been identified.

**Part 2: Supporting evidence**

Please list and/ or link to below any recent and relevant consultation and engagement that can be used to demonstrate clear understanding of those with a legitimate interest in the policy/ service and the relevant findings:

A 12-week consultation took place from the 2 October 2023 seeking views from residents and businesses to proposed changes to Recycling Centres. The consultation received 2876 responses with a demographic profile of:

- 49% male and 47% female
- 83% over 45 (40% aged 45 - 64 and 43% over 65 years old)
- 12% recorded themselves as having a disability

The consultation was run primarily through the Derbyshire County Council Consultations online portal but was also available in paper format through local libraries or on request – only 4.1% of the responses were via the paper survey.

The consultation sought to understand which changes to Recycling Centres would be best received by residents and businesses, in particular, changes to opening days and times; introducing charges for tyres and asbestos; allowing trade waste to be accepted for a fee; adopting the government’s definition of DIY waste; and would people have an issue registering their vehicle details online so that an ANPR system could manage access to Recycling Centres.

Please list or link to any relevant research, data or intelligence, Observatory or any other information that is available and will be used to help complete the analysis?

If there is insufficient information please outline any plans to remedy this?

A 12-week consultation exercise has been completed to better understand potential barriers and/or adverse impacts.

### **Part 3 – Analysing and assessing the impact by equality protected characteristic/ group**

Use the information, customer feedback and other evidence to determine upon whom the policy/ service and any proposed changes will impact upon and how, highlighting where these are negative or positive, including where this could constitute unfair treatment, additional inequality or disadvantage or result in hardship and exclusion.

Against any identified negative potential impacts you must provide details of any action or options which could mitigate against this, and in serious cases, you should highlight where the Council would be advised not to proceed with a new or changing policy or service, including any proposals which are being considered.

Please use your action plan attached to this analysis to record the action and the monitoring which will take place to deliver such mitigation.

If there is insufficient consultation or engagement information please explain what action is being taken to obtain this information and when this consultation/ engagement will be completed and available:

***Protected Characteristic  
or Group***

***Actual or potential positive outcome/  
impact***

***Actual or potential negative outcome/ impact***

1. Age	None anticipated	None anticipated
2. Disability	None anticipated	None anticipated
3. Gender re-assignment	None anticipated	None anticipated
4. Marriage & civil partnership <sup>i</sup>	None anticipated	None anticipated
5. Pregnancy & maternity	None anticipated	None anticipated
6. Race & ethnicity	None anticipated	None anticipated
7. Religion/ belief <sup>ii</sup>	None anticipated	None anticipated
