

Agenda Item No: 4

DERBYSHIRE COUNTY COUNCIL**CABINET MEMBER****16 April 2020****Report of the Executive Director for Adult Social Care and Health****DERBYSHIRE CARERS STRATEGY 2020 - 2025****ADULT SOCIAL CARE AND HEALTH****1. Purpose of the Report**

To seek Cabinet Member approval for the implementation of the Derbyshire Carers Strategy 2020 - 2025.

2. Information and Analysis

According to the 2011 Census, there are around 93,000 carers in Derbyshire. Out of the top 10 districts nationally, with the highest percentage of unpaid carers, 3 districts fall within Derbyshire. It is estimated that unpaid carers deliver over 2.6m hours of care a week in Derbyshire, saving the local economy an estimated £988 every year.

Evidence from Carers UK suggests that not only are the number of carers increasing, but that carers are taking on greater responsibility for more intensive levels of care. The act of caring is known to impact upon carers' physical, mental and economic health and wellbeing, resulting in carers who are more likely to:

- have a long-term physical or mental health condition
- feel isolated or experience reduced social contact
- be concerned about finances
- have insufficient sleep and time for themselves

Nationally and locally, the increase in both life expectancy and the prevalence of caring creates the need for more effective support and service options. It is widely recognised that good support for carers benefits not only carers, by maintaining and promoting their health and well-being, but also the health and well-being of the person they care for. Supporting carers to continue caring is as fundamental to supporting strong families and communities as it is to the sustainability of the health and social care system. Supporting carers to

continue caring supports economic and effective planning as well as morally, being the right thing to do.

There have been many improvements over the last three years in the way carers are supported in Derbyshire, but challenges remain. The Council and Derby and Derbyshire Clinical Commissioning Group have therefore developed and agreed high level, shared priorities set out in the 'Derbyshire Carers Strategy 2020 - 2025'.

Engagement has been undertaken at various levels with carers, partners and providers across the Health, Social Care and Voluntary sector and included Creative Carers, Healthwatch Derbyshire, Links CVS, Derbyshire Carers Association and the National Development Team for Inclusion. Targeted engagement was also carried out with BAME, Mental Health and Learning Disability carers.

The Council completed the ADASS Carers Self-Assessment, informed by feedback from an on-line survey (completed by over 100 carers) and an engagement event (attended by over 50 carers and partners) both considered instrumental in the formation of the strategy.

The Council also took part in the biennial NHS Digital Satisfaction Survey for Adult Carers in England 2018/19 and the findings from this latest survey are also contained within the strategy.

Overall, we received a range of feedback about what is important to carers, but the key priorities carers cited were:

- **Systems and services that support carers:** Carers want to access what they need quickly and simply without going through complicated systems and processes
- **Improving carer health and wellbeing:** Carers want acknowledgment of the toll caring can take on their physical and mental health and need proactive support to maintain their health and take a break from caring
- **Accurate information which is clear and easy to find:** Carers want someone to talk to who has good knowledge and understanding of the system and can make it easier to ask the right questions, particularly around finance and accessing services.

Further priorities set out in the strategy include supporting young carers, the early identification of carers, carer employment and financial wellbeing, involving carers as experts and the support of carers through the wider community and society to make Derbyshire truly 'carer-friendly'. The overall approach is consistent with early intervention, prevention and community support.

The strategy also recognises that investment is required to meet the requirements of the Care Act (2014) and Children and Families Act (2014) to ensure that carers are not pushed to breaking point by a lack of information, advice and support.

Supporting carers remains a priority for Derbyshire's health and social care system. The priorities and actions within this strategy complement and link with the priorities of the Health and Wellbeing Board and the Joined up Care Derbyshire plan to enable the adoption of a comprehensive, whole system approach to identifying and supporting carers.

We have also taken learning from national sources so that the priorities set out in the strategy support the delivery of the Department of Health and Social Care Carers Action Plan (2018) and the objectives for carers outlined in the NHS Long Term Plan (2019), both of which have been strongly endorsed in our discussions with carers locally.

3. Implementation of the Strategic Vision

The Derbyshire Carers Strategy is intended to provide a clear directive to all partners on the areas of support and good practice that will mean the most to local carers and make the biggest difference to their lives.

A five year joint implementation plan outlines the activity which needs to take place and each partner to the strategy will be expected to develop and commit to their own action plan, to ensure the detailed requirements of each priority is considered within their organisation.

It is proposed that the implementation plan is reviewed on an annual basis by the Carers Strategy Delivery Group, who will track progress and report the latest developments to the Health and Wellbeing Board.

Cabinet or Cabinet Member approval will be sought for specific implementation issues and where appropriate this will be supported by co-production, engagement and consultation activity.

4. Financial Considerations

There are no direct financial implications identified in this strategic vision, however further work will need to take place to produce business cases as required in relation to specific schemes to be delivered by the Council and/or with key partners.

5. Legal Considerations

National legislation and guidance underpinning the Derbyshire Carers Strategy include: Care Act (2014), Children and Families Act (2014) Carers National Action Plan (2018) and NHS Long Term Plan (2019).

Local plans and programmes that have helped shape the Derbyshire Carers Strategy include: Derbyshire County Council Plan (2018 – 2023) Derbyshire Better Care Fund Plan, Derbyshire Health & Wellbeing Strategy 2018 - 2023 and Joined Up Care Derbyshire work streams.

Any future detailed proposals and changes to services are likely to require formal consultation and equality impact processes to be initiated.

6. Other Considerations

In preparing this report the relevance of the following factors has been considered: equality of opportunity, health, environmental, social value, transport, property, human resources and crime and disorder considerations.

7. Background Papers

No

8. Key Decision

Yes

9. Is it required that the Call-in period be waived in respect of the decisions being proposed within this report?

No

10. Officer's Recommendation

Cabinet Member is asked to approve the implementation of the Derbyshire Carers Strategy 2020 – 2025.

Helen Jones
Executive Director – Adult Social Care and Health
