Foreword

I hope that you will agree with me that Derbyshire is a fantastic place to live.

We live in one of the most beautiful parts of the UK, with relatively low crime, great schools, wonderful places to visit and, most of all, a community that pulls together.

The job of your County Council, working with our partners, is to protect and nurture what we love about living and working here, while constantly trying to make life even better.

I am pleased to set out what your Council is working to achieve, on your behalf, over the next two years and beyond.

At the heart of our plan is a desire to provide you with maximum value for money on your council tax by delivering the most efficient and effective public services possible.

You will know that there is a lot less money to spend than there used to be. We have had to reduce our spending by a third since 2010 and we still have substantial savings to find. This is not stopping us from being ambitious for the county, although success relies on moving from a paternalistic approach to delivering services to one where we are helping individuals and communities to get on in life and make a difference to where they live.

The plan that we have set out ensures that our energy and resources are focused on working with *you* to make that difference. This includes maintaining Derbyshire's roads to the highest possible standard, supporting our schools to raise the achievement bar even higher, helping people who are more vulnerable to live and flourish in their own communities. We are also focused on attracting investment, growth and prosperity to the county that everyone can benefit from.

We will do this while making sure that you do not pay a penny more in council tax than you need to. We are proud of the quality of our services and the fact that you pay less for them than most people in UK.

**Cllr Barry Lewis,
Leader of Derbyshire County Council**

Budget

In 2019/20, the Council's budget of £519.6m will be used to deliver a broad range of services including its statutory responsibilities. This money comes from six main sources. The Council will spend £656 for every resident in Derbyshire to support the delivery of services.

Where the money will come from (£m)

How the money will be spent (£/head of population)

Enterprising Council

The role and shape of public services has changed dramatically over recent years. Reduced public sector funding and increasing demand for services driven by demographics and long standing social, health and economic pressures mean that the Council, like many other authorities across the country, continues to face significant challenges in providing the services that local people need and want with available resources.

The Council has made huge progress in recent years. However more needs to be done to drive forward the radical transformation needed to continue to improve performance and ensure the sustainability of the organisation in the short, medium and long term. Moving forward, the Council will need to be innovative, think differently about the way services are delivered and not be afraid to make the bold decisions that are ahead.

The Council has committed to becoming an **Enterprising Council**, taking forward an ambitious programme of whole Council transformation and cultural change. Our One Council approach will ensure we have the necessary plans in place to modernise, innovate, transform and collaborate to meet our ambitions, making identified savings whilst continuing to deliver priorities and achieve better outcomes for local people.
